

# Zachary Levaton

(818) 486-4153 • Zach.Levaton.0514@gmail.com • [Personal Site](#) • [LinkedIn](#) • [GitHub](#)

## Education

---

**Oregon State University** | Bachelor of Science in Computer Science

Anticipated June 2023

- GPA: 4.0/4.0
- Key Courses: Web Development, Databases, Data Structures, Algorithms

**University of California, Santa Barbara** | Bachelor of Science in Mechanical Engineering

June 2017

## Projects

---

**Water My Plants Doing?** - [Github](#) - [Live Site](#)

- A project to help make sure my plants are always appropriately watered
- Single page **Flask** web-app that utilizes a **Raspberry Pi** to monitor the soil moisture levels of two of my house plants
- **Cron** executes scheduled sensor readings and writes the data to an **Amazon RDS** database using **MySQL** commands

**CMLZ Tutoring** - [Github](#) - [Live Site](#)

- Tutoring site developed remotely with a partner, using **Git** for source-control
- Built on the **Flask** framework, with **Jinja2** and **Bootstrap** for frontend aesthetic, and **Javascript** for interaction effects
- **Postgres** is used to implement a database schema that involves many-to-many and one-to-many relationships

**Guess That Tweet!** - [Github](#) - [Live Site](#)

- Single page web-app where users are presented with a Tweet, and must guess which Twitter user it belongs to
- Makes asynchronous calls with Twitter's **API** to retrieve recent Tweets and user information
- Utilizes **Bootstrap** and **Vue.js** for front end aesthetic and interactions, and **Express** and **Node.js** for all backend tasks

**Ultimate Tic-Tac-Toe** - [Github](#)

- **Python** implementation of the popular Tic-Tac-Toe variant, played on the **command line**
- Clean and quick game output, with a command line tutorial for those who don't know how to play

## Work Experience

---

**Engineer**

April 2018 - April 2021

[Gas Transmission Systems, Inc.](#)

- Contributed to the validation of over 500 miles of natural gas pipeline & 50 stations for multiple utility providers
- Established an asset validation foundational processes for utility providers, leading to >\$1MM in contract revenue
- Improved and implemented new hire onboarding training, greatly increasing the efficiency of new hire ramp up

**Undergraduate Learning Assistant - Discrete Mathematics**

March 2020 - June 2020

[Oregon State University](#)

- Successfully balanced student work-load with teaching work-load
- Developed a deeper understanding of discrete mathematics topics and their application to computer science
- Encouraged student participation and development through online office hours

## Skills

---

**Programming Languages:** Python, Javascript, Java

**Frameworks:** Express, Vue.js, Flask

**Databases:** MySQL, PostgreSQL

**Tools:** Git, Github, Node.js
